PAGES 2 ENCLOSURES (NO. & TYPE) 1 - sketch on dittoREMARKS This is UNEVALUATED

1. Between 0700 and 1330 on 6 September 1954, 38 MiG-15s, 1 Yak-11, 2
biplanes and 1 MiG of a new type were parked at Wiener-Neustadt airfield.
The depression could not be reconnoitered because of haze.¹ No flying
was practiced. There was a 3/10 to 10/10 overcast at an altitude between
800 and 1,200 meters. The new-type MiG was covered by a tarpaulin except
for its tail with rudder assembly and tail pipe aperture. It was noticed
that this MiG had no step between the trailing edge of the rudder assembly
and the tail pipe aperture but that the aperture was just below the trailing
edge of the rudder assembly. The aircraft parts seen appeared to be nicked.
No other details could be identified as the possibilities of observation
were limited. ² A barbed-wire fence, about 1 meter high, and 4
watchtowers had been erected along the southeastern and eastern boundaries
of the field. A temporary building, about 3 x 1.5 x 2 meters, and painted
white had been erected northwest of the AA gun emplacements. Two Moskvich-
type trucks, 1 mobile flight control station and truck were
seen near the eastern garage installation. The southern and eastern AA gun
emplacements, including the bunker areas were neglected and were hardly to
be distinguished. An umbrella-shaped antenna on a mast about 50 cm high was
seen on the roof of the flight control station in the center of the
northwestern row of buildings. 25X1
2. The gates of the aircraft repair hangar at Theresienfeld airfield were closed.
About 12 gray crates were piled up in front of the hangar. Some soldiers who
wore black-bordered blue epaulets were seen. 25X1
3. Truck van-like truck and 2 jeeps were seen in the
quartering area at Wiener Neustadt. Five van-like trucks and 4 trucks were parked
in the yard of the Artillerie Kaserne. Van-like truck was parked
in the garage shed of the Nachrichten Kaserne. Eleven 37-mm AA guns and 5
four-barreled AA guns, all of them covered by tarpaulins, 23 trucks and 2
van-like trucks were counted in the area of the cantonment west of Wiener
Neustadt. 25X1
